

Impact of additional funding for Sports Premium 2020-2021

Additional funding, under the heading of 'Sports Premium', is received by the school for every primary aged pupil who attends. This money is used to facilitate the access for pupils to additional sports, recreation and physical activity. Children should have access to daily physical activity whether this be indoors, outdoors, off site or with professional input. At Evergreen School we have a wide range of physical need and ability and we wish to ensure all have the opportunity to develop these; ensuring physical and emotional well being.

This year we have focused our Sports Premium budget in enabling all pupil to access swimming, provide opportunities for professional coaching and have begun providing new, appropriate outdoor physical activity for our older pupils.

Intervention.....	£	Impact.....
Sports Premium	£17,098	
SEND Active	£700	<ul style="list-style-type: none"> i. Sessions for classes with a trained sports' coach; providing physical activities to enhance timetabled provision by class teacher. ii. Provides training for staff as they are present during sessions and can build/add to their own ideas bank.
Replacement of pool cover and roller for storage	£4100	Swimming pool on site is used by those pupils who cannot access swimming off site for whatever reason (e.g. mobility difficulties). It is important for these facilities to be properly maintained to allow this activity to continue in the future.
Pool life saving training	£1100	As above swimming is accessed on site for a range of pupils across the school. There must be a trained staff member for life saving as there is no lifeguard present. Additional staff were trained this year to make this physical activity accessible to all children regardless of which class group they are in.
Contribution towards school minibus	£5000	<ul style="list-style-type: none"> i. Opportunities arise for pupils to attend different sporting activities or competitions, transport is required to and from such events. ii. Transport is also required for pupils to access swimming sessions off site. <p>Large coaches are not appropriate as pupils travel in small groups and some have mobility issues and therefore requiring less steps, controlled environment etc. The purchase of the minibus ensures that all children can have the opportunity to attend off site swimming sessions with a trained swimming teacher and participate in other appropriate sporting events.</p>
Outside adventure playground	£6198	Accessing outdoor space to exercise and develop physical ability was limited. A new adventure playground is being installed and has been designed to allow access to children across the school; in addition to being available during learning sessions pupils will have access to this environment during their free time during breaks and lunchtimes.
Total spend	£17098
